

Georgia ARPA Projects (through March 31, 2022) - Cities and Consolidated Governments
Source: US Treasury, April 2022 Reporting Data

Summary: This State and Local Fiscal Recovery Funds (SLFRF) reporting data includes Project and Expenditure reporting data for Quarter 1 of 2022, which was due to Treasury on April 30, 2022. This includes reports from the largest SLFRF recipients (states, territories, and metro cities and counties with a population over 250,000 or an award over \$10 million, and Tribal governments with an award over \$30 million) covering the period of January 1-March 31, 2022.

This reporting data also includes the first annual Project and Expenditure reports that were also due on April 30, 2022 from smaller SLFRF recipients (metro cities and counties with populations less than 250,000 and an allocation less than \$10 million, Tribal governments with an allocation less than \$30 million, and non-entitlement units of local government) covering the reporting period of March 3, 2021-March 31, 2022. Please note that going forward, non-entitlement units of local government with allocations greater than \$10 million will report quarterly.

Recipient Name	Project Name	Expenditure Category Group	Expenditure Category	Project Description
Abbeville	Capital Improvements	1-Public Health	1.7-Other COVID-19 Public Health Expenses (including Communications Enforcement Isolation/Quarantine)	capital outlay to acquire equipment to respond to COVID
Abbeville	Premium pay public sector	4-Premium Pay	4.1-Public Sector Employees	Premium pay to public sector workers required to be exposed to COVID due to nature of job.
Abbeville	Administrative Costs	7-Administrative	7.1-Administrative Expenses	Administrative costs associated with grant management
Acworth	6.1 Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Renovation of City Hall, Public Works, Storm Water assessment and infrastructure replacement as well as retention bonuses for staff.
Adairsville	Match for Grant -Sewer System Rehab and Improvements for the City of Adairsville	6-Revenue Replacement	6.1-Provision of Government Services	City of Adairsville is using their allocation as a match for a Water/Sewer Infrastructure grant. The grant will be a sewer system rehab and improvement. This grant will cover projects that will repair structural damage and minimize inflow and infiltration that seeps into our aging sewer system during rain events. We hope to see less flow at the Wastewater Treatment Plant during rain events after these projects are complete. The pump station is in need of renovation and has been in place since the 1980's. Our population is 4,878. However, we have 1,763 sewer customers. Note that our utilities go outside the City limits so we serve more than our population.
Adel	Government Services	6-Revenue Replacement	6.1-Provision of Government Services	Revenue replacement funds have been/will be allocated to general government services provided by our jurisdiction, including but not limited to maintenance and repairs to city facilities, financial support for employees, repairs and replacements to roads and bridges and to pandemic related expenses that provide for the mitigation and mediation of public health.
Adrian	Water Infrastructure, Employee Bonuses	6-Revenue Replacement	6.1-Provision of Government Services	Employee Bonuses for essentials workers amount was \$4,280.00. The amount was based on full time and part time employees that were employed during the initial time that the pandemic started. Full time employees received pay for two full weeks and part time employee received two weeks at 20 hours a week. Equipment for water department amount spent was \$7,167.12. The money for the water department was spent on testing equipment so that the flouride levels and chloride levels would be more accurate creating safer water levels for our citizens.

Alamo	Employee Hazardous Pay	6-Revenue Replacement	6.1-Provision of Government Services	This project consists of hazardous pay for the following employees and the terms of these funds for each employee. Dana Burkhalter-\$3280.00, Marie Carillo-\$3280.00, Jeff Floyd-\$3280.00, Willie James-\$3280.00, Thomas Oliver-\$3280.00, Karen Zanders-\$3280.00, Stephen Chauncey-\$1640.00, Roy Hood-\$1640.00, John Merrit-\$1640.00, Edward Bess-\$313.88, Ritchie Floyd-\$618.75, Bobby Solomon-\$84.00, Brandon Zuckerman-\$368.50. These funds were paid to employees at a rate of \$1.00 per hour for working up to 40 hours a week during the Covid 19 pandemic. The payments for each employee were based on time worked from (January 27,2020-Noember 17,2021)and not to exceed \$3280.00 for full time employees and \$1640.00 for part time employees.
Albany	Booker Alley	5-Infrastructure	5.5-Clean Water: Other sewer infrastructure	This project will separate substantial portions of the combined sewer to
Albany	8th Avenue	5-Infrastructure	5.4-Clean Water: Combined sewer overflows	This project will separate substantial portions of the combined sewer to significantly reduce localized flooding and the volume of sewerage discharge into the Flint River during periods of heavy rainfall. The improvements must comply with the Georgia Environmental Protection Division's (EPD) discharge permit, which expires in June 2025. The City will have to achieve an 85% treatment of CSO volume to obtain a new permit by the time the current one expires. To accomplish this, the City must separate the waste and stormwater infrastructure. Work completed in preparation of the project includes an engineering study of viable options, an external review of these options, and City Staff-designed solutions. These efforts produced a 10-year Combined Sewer Outfall Separation Plan (Plan) with an overall cost of \$105,588,000. The Plan was adopted by the City Commission on February 23, 2021.
Albany	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	The revenue replacement funded the General Government Services that are critical to the ongoing needs of our citizens, such as Police & Fire Protection, Code Enforcement, Planning & Development, Street Maintenance, and General Administration. With a decrease in revenues as a result of being one of the top three places in the world for COVID-19 positivity rates, this revenue replacement assisted with the continued recovery for our citizens as they tried to resume a degree of normalcy in their lives.
Allentown	Revenue Replacement - Fire Equip.	6-Revenue Replacement	6.1-Provision of Government Services	Revenue replacement due to Covid-19, covering costs of PPE for Fire Department
Allentown	Revenue Replacement - Salary	6-Revenue Replacement	6.1-Provision of Government Services	Replacing Revenue lost during Covid -19
Alpharetta	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Infrastructure Improvements
Alto	Project Government Services	6-Revenue Replacement	6.1-Provision of Government Services	Revenue replacement funds have been/ will be allocated to general government services provided by our jurisdiction, including but not limited to maintenance and repairs to town facilities and equipment, to purchase and equip another public safety vehicle, repairs to roads and to other pandemic related expenses that provide for the mitigation and mediation of public health. Upgrade drinking waterline infrastructure to provide drinking water to residents by improvements to system and removal of any asbestos, lead and any old, galvanized waterlines.

Americus	2021 ARPA Funds	6-Revenue Replacement	6.1-Provision of Government Services	SLFRF funds for employee salaries, water and sewer infrastructure, new software, new trolley for citizens, and pandemic related expenses due to COVID-19 public health emergency.
Andersonville	COMMUNITY CENTER	6-Revenue Replacement	6.1-Provision of Government Services	SLFRF funds were used to renovate an older city building to serve as community center with a dedicated, separate area to relocate the 7 workstations purchased with CARES funds. The city will now be able to provide students (our targeted user) with up-to-date computers, software, printers, and reliable internet. This project was a result of our local students not having access to dependable equipment and/or internet service required for successful virtual learning. We are hoping to be able to provide tutors, as well as a volunteer library. The Community Center will be staffed with volunteers and open to all citizens.
Aragon	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	General government services provided by our jurisdiction, including but not limited to maintenance and repairs to city facilities, financial support for employees, repairs and replacements to roads, public safety(police) services and to pandemic related expenses that provide for the mitigation and mediation of public health.
Argyle	Revenue Replacement - Fire Truck	6-Revenue Replacement	6.1-Provision of Government Services	Purchase of Fire Truck
Argyle	Revenue Replacement - Premium Pay	6-Revenue Replacement	6.1-Provision of Government Services	Premium pay for Volunteer Fire Fighters
Arlington	Employee Bonus	6-Revenue Replacement	6.1-Provision of Government Services	All Fulltime employee recieved \$1,500.00. All Part-time employees recieved \$1,000.00. This was a one time payment as March 1, 2022..
Athens-Clarke County	Premium Pay	4-Premium Pay	4.1-Public Sector Employees	To provide premium pay to Athens-Clarke County employees
Athens-Clarke County	Sanctioned Homeless Encampment	2-Negative Economic Impacts	2.16-Long-Term Housing Security: Services for Unhoused persons	To start up, operate, and manage a sanctioned homeless encampment, including providing mental health and case management services, health services, rehabilitation services, and sanitation services for homeless residents in a safe environment in Athens-Clarke County, GA. Eligible Use: E.C. 2.16 Long-term Housing Security: Services for Unhoused Persons.
Athens-Clarke County	Eviction Prevention Program	2-Negative Economic Impacts	2.2-Household Assistance: Rent Mortgage and Utility Aid	To prevent evictions through settlement negotiation, direct financial assistance and referrals to supportive services to eligible households impacted by the pandemic in Athens-Clarke County. Upon the filing of a dispossessory case, the Magistrate Court distributes information to both parties. If either party is interested, applications must be submitted through the Partner. Partner will screen applications for eligibility and contact both the landlord and tenant directly to come to an agreement. Eligible Uses: E.C. 2.2 Direct financial rental and utility assistance to ACC residents impacted by the pandemic and administrative expenses, detailed in the contract budget, related to carrying out the program.
Athens-Clarke County	Retention Bonus	6-Revenue Replacement	6.1-Provision of Government Services	In response to increase employee separations, a \$1,000 one-time retention bonus was paid to active Athens-Clarke County employees who will remain with the Government for at least one year.
Athens-Clarke County	ARPA Administrative Expenses	7-Administrative	7.1-Administrative Expenses	To account for administrative expenses related to the ARPA grant.

Baldwin	City of Baldwin ARPA	6-Revenue Replacement	6.1-Provision of Government Services	All City personnel working during the public health emergency were eligible for premium pay under exemption #1 "Eligible worker receiving premium pay is earning (with premium included) at or below 150% of Habersham County's average annual wage for all occupations, as defined by the Bureau of Labor Statistics Occupations Employment and Wage Statistics, whichever is higher, on an annual basis. Purchasing the necessary radio system infrastructure will ensure timely and effective response from public safety. Having two respite/nursing home facilities and multiple multi-family units, while being in the foothills of the mountains presents challenges for accurate locating of accidents/injuries. This equipment mitigates dropped calls, as well. Additionally purchasing turn out gear and other equipment allows for expedient responses to emergency calls with preparedness. The utilization of these funds, to date, have allowed our fire personnel to arrive on scene prepared to immediately interact with the patient without having to wait for backup.
Ball Ground	Drinking Water Capacity	6-Revenue Replacement	6.1-Provision of Government Services	Added 60,000 gallons per day of drinking water capacity to the water system
Ball Ground	Old Dawsonville Road Storm Water	6-Revenue Replacement	6.1-Provision of Government Services	Old Dawsonville Road storm water - 30 inch culvert relining and curb, gutter and catch basin installation
Ball Ground	Cherokee Village Storm Water	6-Revenue Replacement	6.1-Provision of Government Services	Replacement of failed storm drain at intersection of Cherokee Village Drive and Cherokee Village Court - addition of headwalls
Ball Ground	Northridge Road Curb and Gutter	6-Revenue Replacement	6.1-Provision of Government Services	Expanded turn radius and curb/gutter addition for storm water at intersection of Northridge Road and State Route 372
Barnesville	Premium Pay for Employees	6-Revenue Replacement	6.1-Provision of Government Services	Premium pay to essential government workers during August 2021. Barnesville saw a spike in COVID numbers in August 2021. We had employees working to help combat the spread of COVID. We paid employees a premium amount over their normal salary in the amount of \$7.50/hour over 160 hours. This amount was \$1200 per employee totaling \$63600. We also used contract labor during this period. We paid \$100/employee totaling \$1000.

Baxley	Water/Sewer Infrastructure	5-Infrastructure	5.5-Clean Water: Other sewer infrastructure	<p>The City of Baxley, GA 31513, is in Appling County. The City of Baxley currently owns and operates one Wastewater Treatment Facility and has a capacity of 2.800 million gallons per day (MGD). However, there is no sanitary sewer service in the target area, and the residents currently have individual septic tanks. The target area is known as Pine Forest and Oak Ridge Subdivisions and is located on the South Side of the City off Blackshear Hwy (SR 15). It is a low area and that has a high groundwater table, which causes the septic tanks to fail and overflow into the waters of the US. This causes health risks that are associated with the human contact of raw (untreated) sewerage. Raw sewerage can be infected with bacteria, viruses, or parasites. For bacterial infection, common illnesses which may result include E. Coli or Campylobacteriosis. Additional bacterial diseases include Melioidosis, Salmonellosis, Trachoma, and Shigellosis. Viral infections may result in Poliomyelitis Hepatitis A or Gastroenteritis. These are mostly spread when untreated sewerage finds its way to water sources. The area is unsatisfactory and negatively impacts the quality of life of the residents. Immediate action must be taken to avoid additional sewerage overflows. Fortunately, the City of Baxley has enough additional capacity at its WWTP to handle the sewerage from the target area. According to the 2019 American Community Survey, Baxley has a population of 4,697 residents with 1,436 households and 28.4% of residents are in poverty.</p> <p>The project will construct three sanitary sewer pump stations, 1,250 LF 6" PVC Force Main, 3,700 LF of 4" PVC Force Main, and 16,260 LF of 10" PVC Gravity Sewer Mains to serve a portion (40%) of Pine Forest and Oak Ridge Subdivisions. Covid-19 has depleted the municipality's work force and ability to combat any issues arising in the infrastructure. Covid has reduced the workforce throughout the state and especially in</p>
Berkeley Lake	Peachtree Industrial Buffer - Stormwater Management	6-Revenue Replacement	6.1-Provision of Government Services	<p>The City of Berkeley Lake purchased an undeveloped property adjacent to Peachtree Industrial Boulevard to provide a buffer for the treatment and management of stormwater flowing into the property from upstream commercial development. The subject property is located in an area upstream of Lake Berkeley. As development upstream of the purchased property has increased and more impervious surface has been added, the amount of stormwater has increased. In an effort to help with the management of that stormwater, and associated potential erosion, sedimentation and pollution, the city purchased this strategically situated property. As a buffer between the upstream development and the downstream ponds and Lake Berkeley, the natural state of this property can slow water runoff and absorb harmful pollutants before they reach nearby water bodies. Lake Berkeley is an important natural resource for the city. It flows to the Chattahoochee River which is the western border of the city. The Chattahoochee is a regionally significant resource supplying drinking water and providing critical habitat.</p>

Source: US Treasury, April 2022 Reporting Data

Berkeley Lake	Stormwater Analysis/Repair - 800 block Lakeshore Dr	6-Revenue Replacement	6.1-Provision of Government Services	The city has received multiple complaints about drainage on one of our local city streets. Inspections of the existing infrastructure in the area resulted in the need for further exploration to determine what, if any, repairs are needed to improve drainage. The city engineer was authorized to do an analysis of the hydrology in this location and provide recommendations based on the findings of the analysis. Based upon the recommendations, the city would undertake the necessary repairs to improve the associated stormwater management infrastructure. In a city with extensive water resources, including a lake, management of stormwater is critical. It is important not only to protect water quality for human use but also to safeguard the ecosystem, including habitat for local flora and fauna. In addition, management of stormwater is critical to avoid damage to both public infrastructure (i.e. roads) and private property.
Berkeley Lake	Peachtree Industrial Buffer - Analysis of Property	6-Revenue Replacement	6.1-Provision of Government Services	After purchasing the property that is the subject of project 21-01, the City received numerous comments about the increasing stormwater pressure on downstream ponds and ultimately Lake Berkeley. In an effort to address those concerns, the City authorized the City Engineer to perform an analysis of the property to determine what, if any, additional stormwater management features could be implemented to increase the effectiveness of the property as a stormwater management tool.
Blackshear	Rail Depot Renovation	6-Revenue Replacement	6.1-Provision of Government Services	Renovate rail depot to promote tourism and economic development in the central business district.
Blackshear	Premium Pay-3000	4-Premium Pay	4.1-Public Sector Employees	Premium Pay for hours worked during the pandemic. Paid at \$2.00 per hour for regular employees and \$10.00 per call for firefighters. With a max. of \$3000.00
Blackshear	COVID LEAVE	3-Public Health-Negative Economic Impact: Public Sector Capacity	3.1-Public Sector Workforce: Payroll and Benefits for Public Health Public Safety or Human Services Workers	Employee pay for absence related to COVID

Buford	City of Buford Premium Pay	4-Premium Pay	4.1-Public Sector Employees	The City of Buford provided premium pay from the Coronavirus State and Local Fiscal Recovery Funds for its employees in order to maintain the following services: Public Safety for 17,000+ citizens, Electric service for 3,945 customers, Gas service for 43,680 customers, Water service for 3,808 customers, Sewer service for 4,566 customers, and Sanitation service for 5,907 customers.
Byron	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	This funding was used for Police, Fire and City Clerk salary and benefits.
Cadwell	6.1 Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	\$3,010.20 was expended during the reporting period on general government services. Remaining SLFRF funds will be used for other general government services including but not limited to road building and maintenance, and other infrastructure; general government administration, staff and administrative facilities; and first responders and other public safety services.
Cairo	COVID Premium Pay	4-Premium Pay	4.1-Public Sector Employees	Premium pay for essential city employees.
Cairo	Sewer Evaluation	5-Infrastructure	5.5-Clean Water: Other sewer infrastructure	Sewer Camera to evaluate sewer mains as for sources of inflow and infiltration to enable repair or replacement to prevent sewer spills.
Calhoun	Pay Assistance	6-Revenue Replacement	6.1-Provision of Government Services	A one time bonus was awarded to essential workers and premium pay was added to essential workers.
Camak	Comcast Internet	5-Infrastructure	5.21-Broadband: Other projects	To bring broadband service to the City of Camak.
Camak	CW2021029	5-Infrastructure	5.5-Clean Water: Other sewer infrastructure	Install sewer lines at Guill Street, Hwy 80 No, Church Street, Nelson St, and Bell St and tie into existing sewer lines.
Camilla	COVID Vaccine Incentive	6-Revenue Replacement	6.1-Provision of Government Services	City of Camilla Incentive Program for COVID Vaccinations for employees and corporate city imits citizens. The program is designed to provide incentive for employees and citizens that can demonstrate they've received at least one (1) approved COVID vaccine.
Camilla	Camilla Toombs Renovation	6-Revenue Replacement	6.1-Provision of Government Services	The installation of playground equipment, recreation equipment, and other upgrades to park facility.
Canton	Premium Pay for Essential Workers	4-Premium Pay	4.1-Public Sector Employees	The City of Canton utilized Fiscal Recovery Funds to remunerate essential workers for the elevated health risks they have faced and continue to face during the COVID-19 public health emergency.
Canton	Vaccination Incentive Plan	1-Public Health	1.1-COVID-19 Vaccination	In effort to promote public health initiatives, the City of Canton provided a COVID-19 Vaccination Incentive Program to encourage staff to be fully vaccinated by January 4, 2022. To be eligible for the \$500 incentive program, individuals were required to be either fully vaccinated by December 31, 2021 or have received their first dose of the Pfizer or Moderna vaccine by that date. To receive the incentive, City employees were required to submit acceptable documentation that they received all required doses of the vaccination. Acceptable documentation included the CDC-issued COVID-19 Vaccination Record Card, a pharmacy leaflet, office visit summary, and/or proof of receipt from a provider. At the close of the program, 75% of City staff had been fully vaccinated.
Canton	Connect Canton Initiative	2-Negative Economic Impacts	2.32-Business Incubators and Start-Up or Expansion Assistance	The City of Canton and the Cherokee County Chamber of Commerce have joined forces to create and implement a newly organized initiative for new business owners within the City of Canton to receive one year fully paid business membership to the Cherokee County Chamber.

Chauncey	ARPA Expenses Apr 2022	6-Revenue Replacement	6.1-Provision of Government Services	Funds were spent on governmental services to provide for new water meters to replace the city's old & outdated meters. New meter replacement will allow for safe delivery of water supply to the city's residents.
Chester	Chester Water Lines Replacement	5-Infrastructure	5.11-Drinking water: Transmission & distribution	Replacement of old water distribution lines throughout the Town of Chester, GA
Clarkesville	Premium Pay	6-Revenue Replacement	6.1-Provision of Government Services	The city of Clarkesville determined that 20 of its employees, as of March 2020, are performing indispensable, in-person, tasks that contribute to the city's ability to function in a consistent and reliable way and therefore, are all essential workers. The city has taken into account the lower income eligibility in connection with the ARPA Premium Pay for employees appropriately deemed essential as well as critical infrastructure workers in the amounts deemed by the mayor and council as completely necessary and appropriate. Premium Pay, which has been calculated at a total of \$50,000 for two years, will be applied in an effort to respond to the heightened risk that all of the city of Clarkesville's workers must endure as they are physically present at the jobsite. The city of Clarkesville hopes that by providing Premium Pay, employees will fill compensated for their consistent hard work and efforts despite the added stress of a pandemic. This outcome can be measured by the city's ability to provide government services at a normal and consistent level as its employees continue to willingly work hard at the jobsite.
Clarkesville	Finance Position	6-Revenue Replacement	6.1-Provision of Government Services	The city of Clarkesville lost a position in finance during the COVID-19 pandemic and was unable to fill the position. Using ARPA funds, the city was given the opportunity to replenish its public sector by hiring a new finance employee. As a result, the city's finance department will be fully staffed for the first time since March of 2020, allowing the city to continue to provide vital services to the public on a fully functioning level, despite the continual effects of the COVID-19 pandemic. The amount of \$54,000 will be used to stabilize this much-needed position by providing two years of salary. The positive outcome of an additional finance employee is already evident through the finance department's ability to address the city's, as well as the public's, needs in a more effective and timely manner as it is now less strained with the additional asset.
Clarkesville	COVID Testing	6-Revenue Replacement	6.1-Provision of Government Services	In response to the COVID-19 pandemic, the city of Clarkesville is using ARPA funds to obtain and provide much-needed COVID-19 testing supplies. These supplies will be vital in the city's ability to mitigate the effects of the virus and provide a safer work environment. The city of Clarkesville has provided 300 COVID-19 tests, at the cost of \$3,210, to employees and citizens of varying backgrounds and class, in order to help diagnose as well as promote safety and awareness throughout the whole community during the pandemic. The city hopes that the provided testing will help in the overall response to the public health needs that have been exacerbated due to the continued COVID-19 pandemic. The outcome can be measured through the community's low COVID-19 numbers, continued awareness, and safety precautions.

Georgia ARPA Projects (through March 31, 2022) - Cities and Consolidated Governments

Clarkesville	Police Officer	6-Revenue Replacement	6.1-Provision of Government Services	<p>Due to the COVID-19 pandemic, the city of Clarkesville has seen a rise in violence as well as general unruliness. As a result, the city's mayor and council approved the hiring of an additional police officer to help respond to the public's increased emergency calls. Before adding a new police officer on staff, the police department had only one patrol per shift. Now, a split shift has been created which helps cover the additional areas and times of increased violence. The policemen on patrol were overworked and the ability to add an additional police officer allows relief and further aid to the officers on staff. If an officer is out sick, there is now an additional officer to carry the work load. The city's ability to use ARPA funds to support an extra officer, as a critical public safety worker, will ultimately ensure a greater and more effective response to the needs of the public in spite of the COVID-19 pandemic. The amount of \$90,000, provided by ARPA funding, will help provide a stable two-year salary for this new position. The city's hope is to see a more effective response to the community's needs and this will be measured by the police department's ability to work more safely and efficiently.</p>
Clarkesville	Court	6-Revenue Replacement	6.1-Provision of Government Services	<p>The city of Clarkesville is replacing revenue that was lost by the court due to the COVID-19 public health emergency in the amount of \$51,164. The ARPA funds will play a vital role in the city's ability to maintain government services at a normal level as well as retain jobs. Due to the COVID-19 pandemic, police officers were instructed to have less contact with the public and therefore, there was a decrease in the number of citations written which resulted in a loss of revenue for the court. Furthermore, city events and festivals, which raised much-needed financial support for the city and its local businesses, were canceled as a result of the pandemic. Grants as well as other financial opportunities, which would normally be provided to local businesses, were not able to be generated resulting in a loss for the city, its local businesses, and its citizens. The effective use of the ARPA funds will be measured by the city's ability to stabilize and provide normal government services and opportunities for its community.</p>

Clarkesville	Water and Sewer Infrastructure	6-Revenue Replacement	6.1-Provision of Government Services	At a major intersection within the city of Clarkesville, DOT is placing a much-needed round-a-bout to help with the growing amount of traffic and congestion within the area. As a result of this round-a-bout, the city has been notified that water and sewer lines will need to be relocated. This relocation project, which has not yet started, will come at a large expense to the city. Furthermore, the city has identified other investment projects that will improve and extend water and sewer projects throughout Clarkesville. These improvements will address and focus on older infrastructure and areas that currently are not served with a public water source. The ARPA funds, at a current estimate of \$431,630, will be used to help the city of Clarkesville make these plans a reality. The city hopes that by completing these projects, a positive change will be evident in the everyday function of the city. The outcome will be measured by the effectiveness of the round-a-bout in regards to daily traffic as well as the number of low-income individuals reached with a vital new public water source.
Clarkston	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Revenue Replacement
Claxton	Well Replacement	6-Revenue Replacement	6.1-Provision of Government Services	The City replaced the main well that supplies water to the citizens because it was not working properly. This expense was not in current year budget.

Cobbtown	Water Meter Replacement and Secondary Water Well Replacement	6-Revenue Replacement	6.1-Provision of Government Services	SLFRF--Replacement of utility meter system with AMI system for consumption management and cost control and secondary well water replacement system.
Cohutta	SLFRF - CFunds	6-Revenue Replacement	6.1-Provision of Government Services	Revenue Replacement funds are allocated to general government services provided by our town and include but not limited to maintenance and repairs to town facilities, premium pay for employees and pandemic related expenses that provide for the mitigation and mediation of the negative economic impacts of the COVID-19 public health emergency.
Colbert	Water Runoff Infrastructure	6-Revenue Replacement	6.1-Provision of Government Services	Water Run-off and pipe installation to take storm water safely out to ditches; Essential Workers Pay
College Park	GENERAL SERVICES - PUBLIC SAFETY	6-Revenue Replacement	6.1-Provision of Government Services	Expenditures include funding public safety operational costs which includes salary expenses, operating and capital costs for the Police & Fire Divisions.
Columbus	Community Ambulances	1-Public Health	1.6-Medical Expenses (including Alternative Care Facilities)	Columbus Fire & EMS provides advanced life support emergency medical transport services to the City of Columbus and Muscogee County. Transport capability is afforded by the ambulance fleet of the Department. The Department has utilized its fleet to transport hundreds of COVID positive patients. Unprecedented call volumes of all types, while adjusting to cope with COVID-19, has placed additional strain on existing resources. The potential risk continues today and will likely continue for the foreseeable future. Additional equipment will allow the city to continue to provide adequate medical care and emergency medical services to citizens throughout the community.
Columbus	Automation of Waste Collection	3-Public Health-Negative Economic Impact: Public Sector Capacity	3.4-Public Sector Capacity: Effective Service Delivery	Waste collection and sanitation workers are essential employees inasmuch as waste disposal is an essential function of the government on behalf of the entire community. The containerization of waste results in a cleaner community by dramatically reducing the potential for spreading of contaminated materials by weather conditions or animals. The automation of waste collection services reduces workforce helper demands while also improving worker safety by eliminating the physical handling of items handled by others. Collection automation allows the waste collection equipment operator to be isolated from the public and workforce helpers in accordance with CDC recommendations which advises employers to limit waste collectors to one person per truck (https://www.cdc.gov/coronavirus/2019-ncov/community/organizations/waste-collection-recycling-workers.html). Court backlogs caused by the pandemic have exacerbated public workforce helper issues in the community as inmate labor is heavily utilized in Columbus for the delivery of various essential services.
Columbus	Premium Pay - Public Safety	4-Premium Pay	4.1-Public Sector Employees	Premium pay for those eligible public safety employees performing essential work during the COVID-19 public health emergency for the government.
Columbus	Premium Pay - General Government	4-Premium Pay	4.1-Public Sector Employees	Premium pay for those eligible general government employees performing essential work during the COVID-19 public health emergency for the government.

Columbus	Broadband Upgrades	5-Infrastructure	5.21-Broadband: Other projects	During the COVID-19 pandemic the reliance on technology by the various departments and public safety institutions grew to new heights. There was an exponential increase in the number of employees working from home, and with that, the demand for business assets and other types of data and information be readily available from anywhere grew as well. As more and more resources were transitioned away from the traditional means of on-site storage and onto servers that could be accessed remotely, the need for an increase in both computing and storage capacity began to be realized. To continue to effectively deliver services technology infrastructure investments were needed to improve access to government IT systems, as well as other technology improvements to increase public access and delivery of government programs and services to include but not limited to: connecting City Buildings, especially those involved with Public Safety such as Fire Stations, Police Precincts, Public Safety Building, Jail, Prison, Citizen Services Center, and the Judicial Tower, with Fiber Optics at a minimum speed of 100 mbps, purchasing equipment, hardware and/or software, that is necessary to accomplish the Fiber Connections and maintain the Fiber Lines, and establishing an auxiliary data center for data storage to support the need for virtual access, ongoing reporting and the continued development of public open data portals.
Columbus	CCG Administrative Expenses	7-Administrative	7.1-Administrative Expenses	To cover the cost of consultants and the portion of payroll and benefits of employees corresponding to time spent on administrative work necessary due to the COVID-19 public health emergency and its negative economic impacts. This includes, but is not limited to, costs related to disbursing payments of Fiscal Recovery Funds and managing new grant programs established using Fiscal Recovery Funds.
Commerce	Water Treatment Plant	5-Infrastructure	5.15-Drinking water: Other water infrastructure	Water Treatment Plant major upgrade with still wells and new filters.
Concord	Concord Wireless	6-Revenue Replacement	6.1-Provision of Government Services	Installation and service of antennas, towers and equipment to provide internet services to members of our rural community.
Concord	Water & Sewerage	6-Revenue Replacement	6.1-Provision of Government Services	Upgrades to aging sewer infrastructure and water system.
Conyers	Employee Pay	6-Revenue Replacement	6.1-Provision of Government Services	This project provided additional compensation to employees who worked during the pandemic and were exposed to other people such as customers and residents.
Conyers	Assistance to City Residents	6-Revenue Replacement	6.1-Provision of Government Services	This project provides assistance to city residents that were negatively impacted by Covid-19.
Conyers	Flock LPR & Gunshot Detection Devices	6-Revenue Replacement	6.1-Provision of Government Services	This project allows for the deployment of gunshot detection devices in problem areas of the city. It allows law enforcement to be able to more effectively tackle the shooting problem.
Conyers	Covid Vaccine Incentive	6-Revenue Replacement	6.1-Provision of Government Services	This expenditure provided incentive for employees to get vaccinated against the Covid-19 virus.
Conyers	Police Hiring Bonuses	6-Revenue Replacement	6.1-Provision of Government Services	This project provides incentive to be able to hire new police officers.
Conyers	Covid Testing	6-Revenue Replacement	6.1-Provision of Government Services	This project paid for testing for employees who had Covid-19 infections to be tested prior to return to work.
Conyers	Consulting Services	6-Revenue Replacement	6.1-Provision of Government Services	Consulting services provided by the city's contracted CPA to assist with the applications for assistance to residents and businesses negatively impacted by Covid-19.

Cordele	Government Services	6-Revenue Replacement	6.1-Provision of Government Services	Government services for credit to utility customers, replacing 1540 linear feet of 48" sewer line, premium pay, and COVID-19 vaccine incentive.
Cornelia	SLFRF Cornelia General Govt Services	6-Revenue Replacement	6.1-Provision of Government Services	Revenue replacement funds have been/ will be allocated to general government services provided by our jurisdiction, including but not limited to maintenance and repairs to city facilities, financial support for employees, repairs and replacements to roads and bridges and to pandemic related expenses that provide for the mitigation and mediation of public health.
Covington	Covington Revenue Replacement SLFRF	6-Revenue Replacement	6.1-Provision of Government Services	Revenue replacement funds have been/ will be allocated to general government services provided by our jurisdiction, including but not limited to maintenance and repairs to city facilities, financial support for employees, repairs and replacements to roads and bridges and to pandemic related expenses that provide for the mitigation and mediation of public health.
Culloden	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Revenue Replacement for Government Operations as needed
Cuthbert	revenue replacement	6-Revenue Replacement	6.1-Provision of Government Services	the city plans to use these funds to refurbish our wastewater treatment plant, first responders equipment, water well & lift stations repair
Dacula	6.1 Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	The City of Dacula is continuing in its efforts to diligently expend this money on projects that will benefit the entire Dacula community. First, the city recognized the Dacula's essential worker's by awarding premium pay for all employees who continually worked during 2020. The second project of high importance was extending broadband to citizens to the city with a partnership with AT&T. This will run lines to Maple Creek Park and West Drowning Creek Road where broadband currently does not exist. The third and fourth concerns for the city are clean water. These projects include a decentralized wastewater treatment facility for City Hall and storm drain repair to recapture stormwater and subsurface drainage. This drain issue is causing a catastrophic impact to not only citizens but anyone who travels through Dacula.
Dahlonega	Park Street Water/Sewer/Stormwater	5-Infrastructure	5.18-Water and Sewer: Other	The City of Dahlonega issued a request for proposals to trusted design firms for a project to replace both water and sewer mains in the downtown area. A design firm was approved by the city council in April of 2022. The Park Street Water and Sewer Project's goal is to procure fully approved and permitted bid ready documents for the replacement of water and sewer mains beneath roughly 2600' of city streets. The construction will also include any required repairs to streets, sidewalks, stormwater conveyances, hardscape, greenspace and other impacted utilities. Many of the water and sewer mains in this area are approaching 100 years old and are in much need of replacement. Also, an increase in the size of the water main will improve the redundancy of our water system while simultaneously providing improved domestic service and fire protection for our historic downtown. Now that we are entering the design phase, we anticipate it will be 18 months until the project is bid and construction can begin.
Dalton	Public Safety	6-Revenue Replacement	6.1-Provision of Government Services	The revenue replacement funds are utilized to pay the wages and benefits of the fire and police departments.

East Point	City of East Point - 6.1 Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	SLFR funds used for premium pay for city employees as well as for the purchases of technology upgrades for the police department.
Eatonton	Water Quality & Supply Improvement Project	6-Revenue Replacement	6.1-Provision of Government Services	<p>The Eatonton-Putnam Water & Sewer Authority (EPWSA) in partnership with Putnam County, GA and the City of Eatonton, GA will address water quality issues, water supply issues, redundancy issues (old pipes continue to fail), and inefficiencies in the water system that have long affected the population and customer base. Old, undersized cast iron and galvanized water mains will be replaced to provide improved capacity, less leaks, and in general, a more reliable water source within the Eatonton city limits to provide for improved health and sanitation and improved fire protection. Additional storage and additional water lines will be provided in the County to serve areas that are currently underserved because of small line size or not served at all. GIS mapping, SCADA enhancements, and water modeling will provide new perspectives for future capital planning in our water system. The entire population served by the EPWSA Water System will benefit from these projects.</p> <ul style="list-style-type: none"> •Improve water system redundancy by adding “loop lines” that feed critical areas of the system; •Improve water availability by replacing undersized distribution mains; •Improve system efficiency by installing strategically placed valves to isolate line breaks; •Improve health and safety by replacing non-functional fire hydrants; •Improve effectiveness and efficiency of operation with improvements to mapping and modeling (GIS).

Grantville	REVENUE REPLACEMENT GOVERNMENT SERVICES	6-Revenue Replacement	6.1-Provision of Government Services	REVENUE REPLACEMENT GOVERNMENT SERVICES
Gray	Sanitary Sewer Replacement Phase 1	6-Revenue Replacement	6.1-Provision of Government Services	Sanitary sewer rehabilitation in order to mitigate the amount of inflow/infiltration entering the city's wastewater system.
Gray	Police Department Equipment Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Investment in Police Department Protective Equipment
Grayson	Grayson Industrial Sewer Extension	6-Revenue Replacement	6.1-Provision of Government Services	Most of properties along Grayson Industrial Parkway do not have access to public sewer. There is an existing sewer manhole (FID 3366133) owned by the Gwinnett County Department of Water Resources (DWR) inside the right-of-way on the east end of Grayson Industrial Parkway. The Client would like to extend gravity sewer along Grayson Industrial Parkway, which will flow to the existing manhole and provide reliable sewer service to the existing development. The gravity sewer will extend a short distance from the existing manhole toward the cul-de-sac to the east, and approximately 1,100' toward the west to Brannon Blvd.
Grayson	Grayson Barn Stormwater Drainage Ditch	6-Revenue Replacement	6.1-Provision of Government Services	Excavation and re-grading of an existing storm water drainage ditch to alleviate a ponding issue in our public park that was creating a health and safety hazard. The ditch will be cleaned out and excavated to create positive flow in approximately 200' feet of ditch line. The area in question will then be graded to create positive flow to alleviate the ponding. The area then will be landscaped with native material, which will help with stabilization of the affected area.
Grayson	Grayson Amphitheater Stormwater	6-Revenue Replacement	6.1-Provision of Government Services	The purpose of this project is to correct a ponding issue that was creating a safety issue in our public park. The affected area is a 9072 sq. ft. arear in the park that held 6-9" of water after heavy rains, which impeded access to the park for long periods of time after heavy rains. The area will be raised to create positive sheet flow of water out of the area. We will haul in dirt and sod the area to stabilize and alleviate the current problem.
Grayson	Grayson Park sinkhole	6-Revenue Replacement	6.1-Provision of Government Services	Heavy rains revealed a sinkhole in the City Park. The affected area was a hole in the ground that covered approximately 96 sq. ft. We will do an exploratory dig to reveal the source of the sinkhole. The area will then be filled and stabilized.
Greensboro	Greensboro Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Premium pay for employees.

Griffin	ARPA-2021-August	6-Revenue Replacement	6.1-Provision of Government Services	<p>Funds were/will be used to address government services directly affected by and due to the negative impacts of COVID-19 Public Health Emergency. With the onset of COVID-19 Public Health Emergency, City staff, Public Safety, Police, Fire, Public Works, Watershed Management, Code Enforcement, Planning & Zoning, Customer Service, Solid Waste, Electric Utility, all were directly impacted by COVID-19 and therefore deemed as essential to the continuation of City operations and services provided to its citizens and general public.</p> <p>As a small City with a limited tax base, we are limited on what we can pay in salary. Most of our salaries are 1-2 thousand dollars per month lower than those of our neighboring Cities. We lack the ability to offer higher wages due to budgetary constraints and restrictions on tax and millage rate adjustments. The City spends significant resources on hiring and training employees due to high turnover rates. Low retention rates and high turnover are attributed to employees leaving for higher paying jobs that require less time and dedication. Retention, while an issue across the nation, is a significant problem for a small city such as the City of Griffin. Regardless of the employee's pay or position within our organization, every employee has worked the front line throughout this pandemic. Therefore, the City's Board of Commissioners voted to address several aspects of City operations with the first initiative regarding employee pay during the pandemic and opted to allocate a small portion of the State and Local Fiscal Recovery Funds towards Premium Pay. Emphasis was placed on workers who have been and continue to be relied on to maintain continuity of operations of essential government services, critical infrastructure, including those critical to protecting the health and wellbeing of our City residents and general public. Influenced by the guidance provided by Treasury, the lowest paid staff received the highest compensation</p>

Kennesaw	Public Works 2nd Floor	1-Public Health	1.7-Other COVID-19 Public Health Expenses (including Communications Enforcement Isolation/Quarantine)	The City of Kennesaw is looking to continue its social distancing initiative by building out the second floor of its Public Works facility to relocate employees who are currently in close proximity to each other. This will also centralize a majority of the outward facing departments into one space so that residents and business owners will have a one-stop-shop space for City services.
Kennesaw	Payroll Vaccine Incentive	1-Public Health	1.1-COVID-19 Vaccination	The City of Kennesaw incentivized its staff to receive their first two COVID-19 vaccines by offering to pay employees who were deemed fully vaccinated with \$250. This helped save the City money in the long-run by reducing the potential cost of sick leave and medical payments, as the City is self-insured, on behalf of its employee.
Kennesaw	Premium Pay	4-Premium Pay	4.1-Public Sector Employees	In order to show the City of Kennesaw's appreciation for its staff that have worked diligently, and primarily in-person, every day during the pandemic, the City gifted employees with bonuses during its holiday lunch. The City of Kennesaw has experienced hiring and employee retention problems along with other municipalities, so this bonus was justified as a tool to prevent employee turnover.
Kennesaw	Museum Second Floor	1-Public Health	1.7-Other COVID-19 Public Health Expenses (including Communications Enforcement Isolation/Quarantine)	The City of Kennesaw is looking to continue its social distancing initiative by renovating the second floor of the Southern Museum to better ventilate the area where most of the employees work as well as to space them out in a manner optimal for the layout. This project was scheduled to begin within the past year as there has been extensive issues with the cooling and ventilation on the second floor, but due to the negative effect COVID-19 had on the tourism industry, the renovation was delayed.
Kingsland	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Revenue loss due to Covid-19

Georgia ARPA Projects (through March 31, 2022) - Cities and Consolidated Governments

Kingston	BONUS PAY	4-Premium Pay	4.1-Public Sector Employees	PROVIDED \$500/\$1,000 BONUSES TO EMPLOYEES WHO WORKED THROUGHOUT THE PANDEMIC TOTALING \$6,000.
Kingston	WELLHOUSE RECONSTRUCTION	5-Infrastructure	5.13-Drinking water: Source	DEMOLITION AND REPLACEMENT OF THE EXISTING BUILDING AND RELATED WATER TREATMENT AND PUMPING FACILITIES.
Kite	ARPA Expenses 33122	6-Revenue Replacement	6.1-Provision of Government Services	Our city used ARPA funds for governmental services to respond to the pandemic. Funds were utilized for premium payments to employees; grant assistance for citizens affected by the pandemic, personal protective equipment & supplies to respond to negative economic impact, and repairs & maintenance to the city's water infrastructure.
LaGrange	Griggs Center	7-Administrative	7.2-Transfers to Other Units of Government	Rehabilitation of Community Center in Distressed Census Tract. Funds transferred to Troup County.
LaGrange	Moss Wood Park	6-Revenue Replacement	6.1-Provision of Government Services	replacement park project in distressed census tract Parks services are provided by the City of LaGrange, GA
LaGrange	Police Salaries	6-Revenue Replacement	6.1-Provision of Government Services	police department salaries from 7/1/22 to 3/31/22
Lakeland	Water System Improvement for the City of Lakeland	6-Revenue Replacement	6.2-Non-federal match for other Federal Programs	ARPA funds will be used as matching funds to the Georgia SFRF grant.
Lawrenceville	Arts Center Public Health Safety Improvements	6-Revenue Replacement	6.1-Provision of Government Services	This is a construction project in the City of Lawrenceville. It is an Arts Center. The HVAC systems were upgraded to filter and clean air. Restroom facilities were upgraded to no touch equipment. Doors and access points were upgraded to no touch access.
Lawrenceville	Downtown Outdoor Improvements	6-Revenue Replacement	6.1-Provision of Government Services	This is a construction project in the City of Lawrenceville around the Historic Downtown Square. The project includes the installation of eating patio/pavilions for use by patron of the downtown restaurants.
Lawrenceville	Removal of Blight	6-Revenue Replacement	6.1-Provision of Government Services	This was the purchase of a blighted multi-unit rental facility. The facility was not maintained, did not have adequate heating and air, lacked proper kitchen and bath facilities, and was in general disrepair.
Lawrenceville	North Clayton Shelter Assistance	6-Revenue Replacement	6.1-Provision of Government Services	This project aided in the rehousing of families/individuals living in the blighted property listed in ARP-02. The residence were rehoused into locations that met building standards and had the appropriate maintenance.
Lawrenceville	Essential Employee Premium Pay	6-Revenue Replacement	6.1-Provision of Government Services	This project provided a one-time payment to essential employees for the services rendered during during the pandemic. The payment was made for the extra efforts staff performed during the period related to working with the public, vendors, and / or consultants. The payment was made to employees with a salary below 150% of the average all occupation salary for Georgia.
Lawrenceville	Villa Lodge Shelter Assistance	6-Revenue Replacement	6.1-Provision of Government Services	This project supported the transition of families living in Extended Stay Motels to more permanent locations. This allowed the families to move to homes where children had their on bedrooms and adequate kitchen and bath facilities existed for families.
Lawrenceville	Rental Assistance	6-Revenue Replacement	6.1-Provision of Government Services	This program assisted individuals/families with rental assistance based on income or pandemic impacts.
Lawrenceville	Police Premium Pay	6-Revenue Replacement	6.1-Provision of Government Services	This is project paid police staff premium pay for work during the pandemic.
Lawrenceville	Neighborhood Stabilization Program	6-Revenue Replacement	6.1-Provision of Government Services	This program will assist home owners with home improvements including code violations, weather proofing, façade enhancements, need repairs and / or handicap accessibility.

Georgia ARPA Projects (through March 31, 2022) - Cities and Consolidated Governments

Source: US Treasury, April 2022 Reporting Data

Lawrenceville	Case Management for Persons at Risk	6-Revenue Replacement	6.1-Provision of Government Services	This project is the development and deployment of software and application for tracking and sharing data between non-profit organizations for persons at risk. To aid in guiding the individual the best resources for the conditions the person is facing.
Lawrenceville	Aurora COVID Testing	6-Revenue Replacement	6.1-Provision of Government Services	This project test performers, stage assistant, directors, and other individuals associated with the arts program at the Lawrenceville Arts Center. This program was consistent with the standards set by Broadway Professional Performances.
Lawrenceville	IT Projects	6-Revenue Replacement	6.1-Provision of Government Services	This project will improve the City's IT infrastructure by upgrading firewalls, implementing an IT resiliency program, and improving network security. Additionally, the City will implement a security camera program to monitor and record vital assets include essential operations of the City.
Lawrenceville	Road Resurfacing	6-Revenue Replacement	6.1-Provision of Government Services	This project will resurface City streets that are in need of repaving.
Lawrenceville	Utility Assistance	6-Revenue Replacement	6.1-Provision of Government Services	This program will be used to intake and determine customer's needs for utility assistance. The program will pay any City utility amounts that are in the arrears, based on the customer's needs.
Lawrenceville	Police Co-Responder	6-Revenue Replacement	6.1-Provision of Government Services	This program will pay for the dispatch of Mental Health Professionals with our Police Officers in events that may need mental assistance. This could include domestic violence, child endangerment, individual encounters to reduce the need for force, and other incidents as they occur.
Lawrenceville	City Services	6-Revenue Replacement	6.1-Provision of Government Services	This project will be for City Service or cost overruns on other projects.
Leary	City of Leary Sewer Improvements	6-Revenue Replacement	6.2-Non-federal match for other Federal Programs	City of Leary applied for and was approved for a water/sewer infrastructure grant and in the application the City pledged to match with \$60,000 from ARPA Funds.
Leary	City of Leary Premium Pay	4-Premium Pay	4.1-Public Sector Employees	City of Leary provided premium pay to employees who engaged in regular contact with other people and/or came in regular contact with materials (i.e paperwork, cash, & checks) handled by others.
Leesburg	Premium Pay	6-Revenue Replacement	6.1-Provision of Government Services	Premium pay for essential workers.
Leesburg	Vaccination Incentive	6-Revenue Replacement	6.1-Provision of Government Services	Provided incentive for employees to get vaccinated.
Lenox	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Revenue Replacement for Employee pay and Water/Sewer Project
Leslie	Premium Pay for employees	4-Premium Pay	4.1-Public Sector Employees	The City of Leslie has 3 full time Police officers that have worked for the City of Leslie the whole time during the reporting period. They along with the City Clerk who also handles the court and the city's water system and public works were paid \$12,122.69 each in premium pay for his time during the reporting period.
Leslie	Meter project	5-Infrastructure	5.11-Drinking water: Transmission & distribution	The City of Leslie decided to use 30% of the money to help with purchasing new water meters for the existing system we had with failing meters. The City went with a project quote from Lanier Supply for a total of 84,000.00. We are using the money to pay for some of the project because the City does not have the funds to complete the project on it' own. We have already paid out the \$20,781.75 to Lanier Supply and have invoices and cleared checks to prove it.
Lilburn	ARPA Administration	6-Revenue Replacement	6.1-Provision of Government Services	A-04: ARPA Administration is a project that accounts for administrative costs to implement ARPA including consulting fees, bank fees, meeting fees, etc.

Georgia ARPA Projects (through March 31, 2022) - Cities and Consolidated Governments

Source: US Treasury, April 2022 Reporting Data

Lilburn	City Facility Office Additions	6-Revenue Replacement	6.1-Provision of Government Services	F-11 City Facility Office Additions: enhance social distancing by creating separate work spaces in city facilities including City Hall, Police Headquarters, and Public Works.
Lilburn	Property Tax Online Payment Option	6-Revenue Replacement	6.1-Provision of Government Services	T-02 Property Tax Online Payment Option: Provide ability for property owners in Lilburn to pay property taxes online without having to come into City Hall to pay.
Lilburn	Cyber-Security Enhancements	6-Revenue Replacement	6.1-Provision of Government Services	T-04 Cyber-Security Enhancements: funding for key cyber-security improvements such as double sign-on, etc.
Lilburn	AV Equipment for Zoom Meetings	6-Revenue Replacement	6.1-Provision of Government Services	T-05 AV Equipment for Zoom Meetings: upgrade AV equipment to host city meetings via Zoom
Lilburn	Splash Pad Seating & Shade	1-Public Health	1.4-Prevention in Congregate Settings (Nursing Homes Prisons/Jails Dense Work Sites Schools Child care facilities etc.)	F-12 Splash Pad Seating & Shade: project to protect the public health by creating shaded, spaced areas with seating for the public to enjoy the existing splash pad
Lincolnton	Elberton Highway Water Line	5-Infrastructure	5.15-Drinking water: Other water infrastructure	Extend the water system 1.25 miles to provide water service to serve approximately 23 customers. All of these customers are currently served by wells, some of which are desperately in need of another drinking water source. This project will generate some income for the City. The amount will depend on how many customers connect and how much water they consume each month.
Lincolnton	High Service Pumps & Alum Ponds	5-Infrastructure	5.13-Drinking water: Source	Purchase new high service pump and clean alum pond at water treatment plant. We are currently constructing a GEFA funding project that includes first upgrades to the water plant since its expansion in 2005. Due to price increases the project is over budget. The new high service pump will replace to smaller pumps that are over 30 years old. This pump will be used at night to deliver a lower flow to maintain system pressures. The alum pond has been postponed due to budget constraints and needs cleaning as the build up sludge from basin and filter washing is piling up. This benefits our whole county as the City is only water treatment facility because if we can keep our facility operating efficiently and not have to borrow funds, we can keep rates lower for our customers.
Lincolnton	Bar Screen & Lift Station	5-Infrastructure	5.2-Clean Water: Centralized wastewater collection and conveyance	Purchase new bar screen for raw sewage screening intake at the plant. Replace inoperable pump in lift station 5 and add SCADA communication to the lift station. Replace old RAS pump at the waste water plant. When our plant was expanded in 2020 these items were unable to be completed due to funding constraints. The older, improperly inoperable equipment is causing damage to other equipment so it is essential we repair/replace these pieces of equipment. This benefits our whole county as the City is only sewage treatment facility because if we can keep our facility operating efficiently and not have to borrow funds, we can keep rates lower for our customers.
Loganville	Loganville 6.1 Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	SLFRF funds used for infrastructure projects (new buildings, sewer & water upgrades).
Lone Oak	Water meters	5-Infrastructure	5.15-Drinking water: Other water infrastructure	Replace residential and well meters
Lookout Mountain	City Hall Building Construction	6-Revenue Replacement	6.1-Provision of Government Services	Funds used to pay request #8 in construction of new City Hall building.
Lookout Mountain	Pump Tanks Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Funds used to replace (4) 1000 gallon plastic pump tanks with (3) 1500 gallon concrete pump tanks.

Georgia ARPA Projects (through March 31, 2022) - Cities and Consolidated Governments

Source: US Treasury, April 2022 Reporting Data

Lookout Mountain	Detection Instruments	6-Revenue Replacement	6.1-Provision of Government Services	Funds used to purchase new H2S detection instruments. Current 3G Data logger will no longer be supported starting Feb 2022.
Lookout Mountain	Air Release Valves	6-Revenue Replacement	6.1-Provision of Government Services	Funds used to purchase 5 new air release valves. Replaced cast iron with PVC valves for faster flow of sewage.
Louisville	Louisville GA - 6.1 Revenue replacement	6-Revenue Replacement	6.1-Provision of Government Services	We are using these funds in these approved categories 1) Essential Employee Pay 2) Public Safety pay increase and retention 3) Low income Home rehabilitation program 4) Donation to SHIPS For Youth 501c3- disadvantaged youth 5) Sewer infrastructure project
Lovejoy	6.1 Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	As a result of the pandemic COVID-19, the City of Lovejoy was affected financially. The economic downturn resulted in loss of revenue. Which not only impacted our citizens, but our City operations and revenue sources as well. All of our resources and efforts were focused on ensuring the welfare and safety of our citizens. By doing so, we continued to maintain fully staffed schedules for our police officers. Their bravery and selfless attitudes have helped to maintain the quality of life that our citizens are accustomed to living in our great city.
Ludowici	New digital meters	5-Infrastructure	5.15-Drinking water: Other water infrastructure	Change out old meters and replace with digital meters to help control the chance of meters being misread and keep contact with residence to a minimum (This will only cover part of the cost and the rest will come out of local funds
Ludowici	Revenue Loss	6-Revenue Replacement	6.1-Provision of Government Services	Replace loss revenue due to pandemic
Ludowici	Water Payments	2-Negative Economic Impacts	2.2-Household Assistance: Rent Mortgage and Utility Aid	Got delinquent water bills up to date and gave current customers \$100.00 credit
Ludowici	Premium Pay	4-Premium Pay	4.1-Public Sector Employees	The city gave each employee (20) \$3,000 each and when part 2 of the draw is received the city plans on giving each employee (22) and additional \$3,000
Lula	6.1Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Build New Sewer Line "i" extending sewer line to 365 eliminating 5th street pump station, Build new well development
Lumber City	Rev Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Police Officers pay
Lumpkin	REV REPLACEMENT	6-Revenue Replacement	6.1-Provision of Government Services	REVENUE REPLACEMENT CITY HAD TO PAYOUT FOR INFRACTURE.
Luthersville	Water System Infrastructure	5-Infrastructure	5.11-Drinking water: Transmission & distribution	The City of Luthersville Water System will be using the ARPA funds for the upgrading of the systems water line and other improvements like the installed a supervisory control and data acquisition (SCADA) system to assist with the monitoring remote and control of the water distribution tanks and wells, with alarming notification of system failures.
Lyons	US Hwy 1 North Deep Well	5-Infrastructure	5.13-Drinking water: Source	Drill 1,000 GPM deep well in the NW or NE quadrant of the City into the Florida aquifer
Lyons	West Roosevelt Sewer and Storm Water Repair	5-Infrastructure	5.2-Clean Water: Centralized wastewater collection and conveyance	West Roosevelt Ave Area Sewer and Storm water. Replace approximately 3,300 LF of gravity sewer, construct new storm water system
Lyons	Emmanuel Circle Water System Improvements	5-Infrastructure	5.11-Drinking water: Transmission & distribution	Replace existing 2' water main with 6" water main from Ga Hwy 202 at Wing Road into Emmanuel Circle
Lyons	Pump Station Rehabilitations	5-Infrastructure	5.5-Clean Water: Other sewer infrastructure	Rehab Five(5) Sanitary sewer pump stations
Lyons	US Hwy 1 North Elevated Storage Tank	5-Infrastructure	5.14-Drinking water: Storage	Construct new 250,000 gallon elevated tank in the NW or NE quadrant of the City

Georgia ARPA Projects (through March 31, 2022) - Cities and Consolidated Governments

Source: US Treasury, April 2022 Reporting Data

Lyons	Industrial Park Deep Well Repair	5-Infrastructure	5.13-Drinking water: Source	Replace failing pump shaft at the existing industrial well
Macon-Bibb County	Brookdale Warming Center	2-Negative Economic Impacts	2.16-Long-Term Housing Security: Services for Unhoused persons	Funds will support the Brookdale Warming Center to continue operating and providing for building equipment, staffing, PPE, and additional support operation for the unhoused.
Macon-Bibb County	ShotSpotter	1-Public Health	1.11-Community Violence Interventions	ShotSpotter will provide gunshot location and response services to better protect lives of Macon-Bibb County citizens.
Macon-Bibb County	NewTown Macon	2-Negative Economic Impacts	2.15-Long-Term Housing Security: Affordable Housing	NewTown will provide funding through their CFI to create affordable housing for people working in Downtown Macon.
Macon-Bibb County	Employee Vaccine Incentive	1-Public Health	1.1-COVID-19 Vaccination	Macon-Bibb County Employees were given \$500 (Full-Time) and \$250 (Part-Time) for showing proof of two doses of vaccine.
Macon-Bibb County	Historic Macon	2-Negative Economic Impacts	2.15-Long-Term Housing Security: Affordable Housing	Historic Macon will create affordable In the Beall's Hill Neighborhood Revitalization zone to create more affordable, workforce housing.
Madison	Premium Pay to Eligible Workers of the City of Madison	4-Premium Pay	4.1-Public Sector Employees	One time premium pay to City workers
Madison	Revenue Replacement from Hotel/Motel Tax	6-Revenue Replacement	6.1-Provision of Government Services	SLFRF to reimburse repairs to public building paid from Hotel/Motel tax.
Manchester	General Government Services	6-Revenue Replacement	6.1-Provision of Government Services	To provide general government services to operate the municipal government during the pandemic.
Marietta	No Projects Available	No Projects Available	No Projects Available	At this time, our approving authority, Marietta City Council, has not yet selected projects and will do so following a review of the Final Rule and evaluation of eligible projects.
Maxeys	Willow Street Upgrade	5-Infrastructure	5.11-Drinking water: Transmission & distribution	Upgrade existing distribution water line from 1" to 2".
Maysville	Waterline Upgrade	6-Revenue Replacement	6.1-Provision of Government Services	Upgrade waterlines for better water pressure.
McCaysville	Provision of Government Services	6-Revenue Replacement	6.1-Provision of Government Services	Government services to include provision of public safety employees and equipment, water and sewer infrastructure, Covid sick pay & employee retention incentive.
McIntyre	2021 Government Services	6-Revenue Replacement	6.1-Provision of Government Services	The City of McIntyre used the funds for essential pay for employees that didn't work from home during the pandemic and volunteer fire fighter. The city council voted to give full/part-time employee a certain amount and volunteer fire fighters.
Meansville	Water Distribution Improvements	5-Infrastructure	5.11-Drinking water: Transmission & distribution	Replacement of water system
Meigs	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Premium pay for employees. The City of Meigs can not afford health insurance for its employees. During COVID some of the employees had out-of-pocket expenses, and one of the workers lost a spouse to the virus.
Metter	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	These funds were used as revenue replacement in several areas. They were used to purchase fire department equipment. They will be used for infrastructure. They were used to issue credits to our customers due hardships caused by COVID 19. Also, they were used to issue income to the employees due to hardships caused by COVID 19.
Milan	Project 2021-1	6-Revenue Replacement	6.1-Provision of Government Services	Provide general government services to public. Maintain function and access to safe water supply.
Milledgeville	Premium Pay Bonus - 2021	6-Revenue Replacement	6.1-Provision of Government Services	Due to the City losing essential workers (City of Milledgeville employees working to provide essential government services during the pandemic at the risk or exposure to COVID-19) to other private and government employers that are paying higher wages and, in an effort, to retain City essential workers, there was a legitimate public need to pay premium pay bonuses to all eligible City of Milledgeville Employees.

Georgia ARPA Projects (through March 31, 2022) - Cities and Consolidated Governments

Current admin facility houses City Hall and Water Authority; it is a historic building with many needs for repair and/or renovations.
Norcross	Stormwater Cured-in-Place Storm Pipe Relining Project	6-Revenue Replacement	6.1-Provision of Government Services	<p>The City of Norcross's Stormwater Cured-in-Place Storm Pipe Relining Project consists of addressing storm pipe infrastructure that is in need of repair in the City of Norcross. The purpose of the pipe relining is to rehabilitate storm water pipes, ensuring no voids in the infrastructure and repairing at a more cost effective process than replacing pipes. Repairs will extend the life of the storm pipes and culverts for 50 years. The City of Norcross rehabilitation of Stormwater pipes will be done using cured-in-place pipe (CIPP) trenchless technology.</p> <p>The pipes are intended to be rehabilitated in place by the cured-in-place pipe (CIPP) method. Project requires CCTV (Closed Circuit TV) verification.</p> <p>There is approximately 33,000 feet of pipe needing relined. All pipes being relined have aged past their lifespan, ranging from 25-50 years old.</p>

Pavo	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	We are still gathering input to help make our decisions to spend the funds, we have provided premium pay to city workers
Peachtree City	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	SLFRF funds used for staff - employee salaries
Peachtree Corners	Revenue Replacement - Personnel Costs	6-Revenue Replacement	6.1-Provision of Government Services	Revenue replacement cost associated with city personnel.
Peachtree Corners	Revenue Replacement - Utilities	6-Revenue Replacement	6.1-Provision of Government Services	Revenue replacement funds in this project will be used to cover the city's utility costs.
Peachtree Corners	Revenue Replacement - Contractor	6-Revenue Replacement	6.1-Provision of Government Services	The City utilizes third-party contractors to provide many of our services, including but not limited to, building inspections, code enforcement, zoning, and street maintenance. Revenue replacement funds in this project covers the costs for our two primary vendors that provide many of our government services.
Peachtree Corners	Nonprofit Operating Grant Program	2-Negative Economic Impacts	2.34-Assistance to Impacted Nonprofit Organizations (Impacted or Disproportionately Impacted)	This project was created to provide assistance to nonprofits that were negatively impacted by COVID. Grants received through this program can be used to cover allowable operating expenses, such as personnel cost, mortgage/rent, and programming cost.
Peachtree Corners	Nonprofit Capital Grant Program	2-Negative Economic Impacts	2.34-Assistance to Impacted Nonprofit Organizations (Impacted or Disproportionately Impacted)	This program was created to assist nonprofit organizations in modifying their facilities to address COVID-19 prevention measures such as upgrading ventilation systems, enabling social distancing, improving the exterior areas of their facilities, etc.
Peachtree Corners	Business Assistance Grant - Impacted Businesses	2-Negative Economic Impacts	2.29-Loans or Grants to Mitigate Financial Hardship	This project was created to provide assistance to businesses that were negatively impacted by COVID. Grants received through this program can be used to cover allowable operating expenses, such as personnel cost, mortgage/rent, utilities, and other operating expenses.
Peachtree Corners	Business Assistance Grant - Impacted Industries	2-Negative Economic Impacts	2.35-Aid to Tourism Travel or Hospitality	This project was created to provide assistance to businesses within the Tourism, Travel, and Hospitality industries that were negatively impacted by COVID. Grants received through this program can be used to cover allowable operating expenses, such as personnel cost, mortgage/rent, utilities, and other operating expenses.
Peachtree Corners	Nonprofit Emergency Relief	2-Negative Economic Impacts	2.2-Household Assistance: Rent Mortgage and Utility Aid	To assist Peachtree Corners' residents that have been negatively impacted as a result of COVID-19, the City of Peachtree Corners created the 2021 Nonprofit Emergency Relief Fund for which qualified nonprofits may apply for funding to distribute to Peachtree Corners' citizens.
Peachtree Corners	Choose PTC - Shop Local Program	2-Negative Economic Impacts	2.37-Economic Impact Assistance: Other	Peachtree Corners partnered with Colu Technologies to create Choose PTC. Using the Choose PTC app, shoppers can earn rewards at hundreds of local businesses across the City. These rewards may then be applied as cash discounts to redeeming businesses which are reimbursed by the City so there is no cost to shoppers or businesses.
Peachtree Corners	GCPS - Pinckneyville Middle School	7-Administrative	7.2-Transfers to Other Units of Government	The City is partnering with Gwinnett County Public Schools to make improvements to Pinckneyville's track and field areas to create more outdoor and socially distanced recreation and extracurricular opportunities.
Pearson	THE CITY OF PEARSON,GA	6-Revenue Replacement	6.1-Provision of Government Services	First Responder Workers
Pelham	Premium Pay-6.1 Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Premium Pay for employees

Georgia ARPA Projects (through March 31, 2022) - Cities and Consolidated Governments
Source: US Treasury, April 2022 Reporting Data

Perry	GA Avenue Water Improvements	6-Revenue Replacement	6.1-Provision of Government Services	Install new water main to replace failing asbestos mains to better serve the population of 1000 in the area. The desirable outcome is to provide a reliable source of water and improved fire protection with the addition of 2 hydrants. Project is now complete. There have been no water main breaks or pressure issues since installation.
Perry	Houston Lake Rd Widening	6-Revenue Replacement	6.1-Provision of Government Services	Along Houston Lake Road/Highway 127, Houston County plans to widen the roadway between Kings Chapel Road and Gray Road. To accommodate widening of the roadway, the City of Perry (City) plans to relocate the existing water mains within the project area. The estimated population served by this project is 60. (This includes those directly served – many more will be served as secondary beneficiaries as this is a main line feeding the east side of town. But hard to estimate). Design for this project will include 2,650 L.F. of 12” water main along with associated hydrants, valves, services, bores, onnections, and other related work.
Perry	Airport Booster Pump	6-Revenue Replacement	6.1-Provision of Government Services	GWES completed the Airport Road Water Pressure Evaluation in January 2020, which detailed the issues with water pressure in the Airport Road area. To increase water system pressure, a booster pump station, inclusive of both jockey and fire flow pumps, is required to achieve a minimum static pressure of approximately 70-80 pounds per square inch (psi) during normal, everyday operation. The estimated population served by this project is 80 plus industrial/commercial customers. Design for this project will include a fire flow/jockey pump station. A site selection evaluation is currently being conducted to determine potential locations for the water booster pump station along Airport Road. The design period for this project is approximately six (6) months. Bidding and contract administration period is approximately two (2) months. Construction will last approximately four (4) months. Total timeline to project completion is 12 months. The project budget is estimated to be \$600,000. The estimated population served by this project is 80 plus industrial/commercial customers. Construction of a booster pump station would address water pressure issues in the area. The objective of this project is to construct a booster pump station, inclusive of both jockey and fire flow pumps, in order to increase water pressure in the Airport Road area.

Georgia ARPA Projects (through March 31, 2022) - Cities and Consolidated Governments
Source: US Treasury, April 2022 Reporting Data

Perry	Lemley Pump Station Station	6-Revenue Replacement	6.1-Provision of Government Services	<p>Due to recent and future residential development in the Lemley Pump Station service area, the City of Perry (City) plans to decommission the Lemley Pump Station and install gravity sewer along Highway 41. Six (6) pump stations currently flow to the Lemley Pump Station, including Hwy 41 N, The Home, Rydings, Langston Place, Nottinghamill, and Wooden Eagle Pump Station. Lemley Pump Station’s service area includes all current and future flows from these pump stations. The beneficiaries of this upgrade will be current and future development within the service area. The estimated population served by this project is 1,000. Design for this project includes construction 1,900 LF of 12” gravity sewer main along Highway 41 with a connection to the Thompson Road Sewer Replacement project at the intersection of Highway 41 and Thompson Road. When this gravity sewer main is installed and placed into service, the Lemley pump station on Highway 41 will be abandoned, and flow will continue from the location of the Lemley pump station through the new gravity sewer main. The pump components at Lemley will be removed and repurposed at other locations within the City’s wastewater collection system.</p>
Perry	Frank Satterfield WWTP Improvements	6-Revenue Replacement	6.1-Provision of Government Services	<p>GWES completed the Frank Satterfield WPCP Capacity Evaluation in March 2020, which detailed the feasibility of increasing the facility’s permitted capacity in the most economical approach. The WPCP is currently permitted for 3.0 million gallons per day (MGD). The target goal is to increase the WPCP’s capacity by approximately 1.4 MGD for a total permitted capacity of approximately 4.4 MGD Average Daily Flow (ADF). This project serves all existing sewer customers of the City of Perry. Design for this project includes a new influent metering station, a cover for the bar screen conveyor, addition of four (4) media disks to each filter, upgrades to the chlorine contact and dichlorination systems, and SCADA improvements. GWES completed the Frank Satterfield WPCP Capacity Evaluation due to the facility reaching current capacity limits with occasional flow violation due to high rainfall and excessive inflow and infiltration (I&I). It was determined that the most economical approach to increasing the facility’s permitted capacity.</p>

Source: US Treasury, April 2022 Reporting Data

Perry	Thompson Road Sewer Improvements	6-Revenue Replacement	6.1-Provision of Government Services	The Lemley Pump Station serves much of the City of Perry's (City) sewer service area north of Perry Parkway. The Lemley Pump Station on Highway 41N discharges through a 6" force main into a 12" gravity sewer main on Highway 41N that flows south. The 12" gravity sewer main decreases to an 8" gravity sewer main at the intersection of Thompson Road and Highway 41N and continues west on Thompson Road before returning to a 12" gravity sewer main as it turns toward the south and crosses Perry Parkway. Due to recent and future development in the upstream basins, the City wishes to eliminate the 8" gravity sewer main bottleneck on Thompson Road. The estimated population served by this project is 1,000. Design for this project will include 1,800 LF of 12" gravity sewer main to replace the existing 8" gravity sewer bottleneck.
Perry	Planters Ridge	6-Revenue Replacement	6.1-Provision of Government Services	Install master meter and other infrastructure for new subdivision development consisting of approximately 450 houses.
Perry	Thompson Road Water & Sewer Extension	6-Revenue Replacement	6.1-Provision of Government Services	Installation of 1,260 L.F. of 8" gravity sewer and 1,680 L.F. of 8" water main along with associated manholes, valves, hydrants, fittings and accessories.
Perry	Perry Parkway Pump Station Improvements	6-Revenue Replacement	6.1-Provision of Government Services	The Perry Parkway Pump Station serves much of the eastern portion of the City of Perry's (City) sewer service area. Through various previous studies and evaluations, the pump station capacity has been identified as inadequate. The existing pumps average pumping times are greater than ideal, which hinders the ability to handle peak flows. The pump station is presently rated for 600 gallons per minute (gpm), which is significantly undersized for the future growth in this service area. To accommodate future growth in this area, the City wishes to upgrade the Perry Parkway Pump Station to 1,300 gpm. The estimated population served by this project is 7,000. Design for this project will include installation of a standby lag diesel pump with a capacity of 700 gpm at 2200 revolutions per minute (rpm). This pump will sit on an existing bladder tank and will require minor piping and valve improvements to utilize an existing 8-inch force main.
Pine Lake	Government Services	6-Revenue Replacement	6.1-Provision of Government Services	Governmental services expenditures to include infrastructure repairs to Pine Lake Dam, repairs and maintenance to local streets and parks improvements.
Pine Mountain	6.1 Revenue Replacement Government Services	6-Revenue Replacement	6.1-Provision of Government Services	Water Tank Replacement/Meter Replacement/Automation/Spring and Treatment Building
Pitts	Government Services & Infrastructure	6-Revenue Replacement	6.1-Provision of Government Services	Project includes total renovation of aging water tanks, sewer upgrades and maintenance as well as major repair and repaving of city street.

Poulan	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Due to the impact of Covid-19 City revenues decreased in FY 2020. SLRF Funds were used to offset the budget decreases.
Powder Springs	Program Management	6-Revenue Replacement	6.1-Provision of Government Services	The grant allows for reasonable costs for administering the program. The City of Powder Springs contracted with a limited term SLFRF Program Manager to coordinate utilization of Fiscal Recovery Funds. Duties include collaborating with City departments, public stakeholders service providers and other agencies; determining project eligibility; ensuring proper procurement procedures; tracking expenses; and other related duties.
Powder Springs	Revenue Replacement Designated Items	6-Revenue Replacement	6.1-Provision of Government Services	The city has recently incurred employee-related expenses due to the pandemic. During the last twelve months a number of the City's workers were unable to take vacation time due to the essential nature of their jobs. They were impacted by workload changes, absences of other employees, and the inability to fill vacancies. The city incurred costs to purchase vacation hours from these employees who were unable to take vacation time due to the pandemic so they would not lose the value of the vacations due to the City's vacation accrual limits. In addition, the City incurred costs to fund vaccinations for City employees.
Quitman County	REVENUE REPLACEMENT	6-Revenue Replacement	6.1-Provision of Government Services	REVENUE REPLACEMENT
Ray City	Water Sewer Infrastructure	6-Revenue Replacement	6.1-Provision of Government Services	For increasing available treatment capacity at water pollution control plant.
Reidsville	WWTP Affluent Pump	6-Revenue Replacement	6.1-Provision of Government Services	Rental of Pump for affluent flow of sewer to LAS. Vital to WWTP operations.
Reidsville	Update Commercial Meters	6-Revenue Replacement	6.1-Provision of Government Services	Upgrade current commercial meters to digital radio reading meters. Project includes: taking out old meters, contracting team for installation and changing out kits.
Reidsville	Lift Station 1 upgrade	6-Revenue Replacement	6.1-Provision of Government Services	To ensure proper sewage flow for citizens in the public housing area a complete upgrade of lift station is needed. This will include new rail system, prefab man holes, new electrical connection and power upgrade.
Reidsville	Repair and Upgrade of Lift Station 2	6-Revenue Replacement	6.1-Provision of Government Services	Rehabilitation of existing lift station to bring it back to its optimal use. This pump services 27 homes and a large business.

Georgia ARPA Projects (through March 31, 2022) - Cities and Consolidated Governments
Source: US Treasury, April 2022 Reporting Data

Sandersville	Sandersville ARP Projects	6-Revenue Replacement	6.1-Provision of Government Services	The City of Sandersville plans to use the revenue replacement funds to help mitigate and mediate the negative economic impacts of the COVID-19 public health emergency. The City has identified infrastructure, employee financial support, and facilities upgrade needs. The City plans to construct two new wells, improve broadband infrastructure, provide premium pay to employees, and upgrade the City Hall's drive thru area to help combat the spread of COVID-19. The first well is being constructed to replace the City's failed Well 7 that was built in the 1970s. The second well is being constructed to support a proposed industry that specializes in medical PPE, specifically nitrile gloves, located in Sandersville. The nitrile glove manufacturing process uses large quantities of water, requiring additional water sources. The well project is currently in the engineering and design phase nearing construction. The retroactive premium pay is expected to be paid out in FY2022 and City Hall facility upgrade is expected to be completed by FY 2023. The broadband infrastructure is planned for the near future to be completed prior to the December 2026 deadline.
Sandy Springs	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Revenue Replacement
Santa Claus	Water Storage Bluding	5-Infrastructure	5.14-Drinking water: Storage	Replace the chlorine Storage building that feeds into our water Supply Tank.

Smyrna	Parks and Recreation-Durham and Taylor Brawner	6-Revenue Replacement	6.1-Provision of Government Services	<p>Site improvements at two City of Smyrna Parks. This project is being supplemented by additional revenue previously approved in the budgeted CIP process. Due to increased costs related to supply chain complications and other factors, the City did not have enough funds appropriated to complete the project.</p> <p>Durham Park is located at 1554 Spring Street, Smyrna, GA 30080. This project will create an entry point into Durham Park from Spring Street where no entry currently exists. In its current state, an eroded path exists from visitors of the park entering off of Spring Street, down the hillside and ultimately causing the hillside to erode. This new entry plaza will aid in the control of erosion into an existing creek and waters of the state within the park, unsafe topographic conditions, and provide an enhanced aesthetical appearance from Spring St.</p> <p>Taylor Brawner Park is located at 3180 Atlanta Rd SE, Smyrna, GA 30080. The project consists of site improvements at the existing playground located on the SW side of the property. In its existing condition, the playground consists of existing playground structures, mulch surroundings, park benches and picnic tables, and a swing set. Much of the surroundings are eroded from foot traffic on existing bare soil. The site improvements will create hardscape seating areas for care takers, visitors, and children, additional playground</p>
Smyrna	General Government	6-Revenue Replacement	6.1-Provision of Government Services	<p>This purpose of this project is to replace the inoperative motorized projector screen and projector system found in the city's council chambers at City Hall. This project will upgrade four existing broadcast quality cameras from 720P resolution to 4K resolution, install four 64" LED display monitors throughout the council chambers and will provide all necessary material and labor required to complete this work.</p>
Smyrna	Public Safety-Police training facility	6-Revenue Replacement	6.1-Provision of Government Services	<p>The City needed a training facility for police staff. This project covers the build out costs for the space.</p>
Social Circle	Project Government Services	6-Revenue Replacement	6.1-Provision of Government Services	<p>Funds used for revenue replacement</p>
Soperton	CITY OF SOPERTON	6-Revenue Replacement	6.1-Provision of Government Services	<p>FUNDS WILL BE EXPENDED FOR GENERAL GOVERNMENT SERVICES</p>
Sparks	Revenue Replacement 6.1	6-Revenue Replacement	6.1-Provision of Government Services	<p>Revenue replacement funds have been/ will be allocated to general government services provided by our jurisdiction, including but not limited to maintenance and repairs to city facilities, financial support for employees, repairs and replacements to roads and bridges and to pandemic related expenses that provide for the mitigation and mediation of public health</p>

Georgia ARPA Projects (through March 31, 2022) - Cities and Consolidated Governments

Sparta	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	The City of Sparta has elected to claim the Revenue Loss Allowance as permitted by the final ARPA ruling by the U.S. Department of the Treasury. Funds will be used for general government services including road building and maintenance, and other infrastructure; general government administration, staff and administrative facilities; and police and other public safety services.
Sparta	Utility Assistance	2-Negative Economic Impacts	2.2-Household Assistance: Rent Mortgage and Utility Aid	Funds disbursed to Overview, Inc. to provide utility assistance to eligible citizens of the City of Sparta.
Springfield	WWTP Upgrade and ERC Sewer Extension	6-Revenue Replacement	6.1-Provision of Government Services	The City of Springfield seeks funding to assist with the upgrade of our Waste Water Treatment Plant and the extension of sewer transmission lines a distance of 2.5 miles to bring the New Ebenezer Retreat Center(ERC), a non-profit educational retreat center and a necessary community meeting center located in an unincorporated area of Effingham County, on as a sewer customer. ERC's onsite septic facilities are failing and in need of upgrade and/or expansion. Due to ERC's remote location and distance from current sewer lines owned by the City of Springfield, ERC is unable to fund this project on their own. The added 2.5 miles of sewer lines provides the added benefit to provide sewer service to nearly two square miles of rural area properties that currently have no access to municipal sanitary services. Upgrades to the WWTP will improve Springfield's discharge water quality, further protecting our precious natural resources, and ensure our continued ability to serve additional rural customers.
St. Marys	ARPA Funding	6-Revenue Replacement	6.1-Provision of Government Services	Maintenance and care of the City's water sewer treatment plants, highway and streets. Preventive care for computer hardware. Providing citizens and businesses with rental and utility assistance.
Stapleton	SLFRF Salaries	6-Revenue Replacement	6.1-Provision of Government Services	Departmental salaries
Statesboro	Statesboro Housing Rehabilitation Program	2-Negative Economic Impacts	2.23-Strong Healthy Communities: Demolition and Rehabilitation of Properties	Provide rehabilitation and weatherization of homes for low- to moderate- income households in the City of Statesboro, GA. The program follows criteria similar to the CDBG housing rehabilitation program. City council has established a cap of \$50,000 per home and a total program budget of \$5,000,000. In addition to using City staff, the City has hired a housing rehabilitation management contractor to oversee the program. A minimum of 89 homes will be improved by this program.
Statesboro	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	This project is used to fund government services such as extending sewer infrastructure, food insecurities and housing rehabilitation.
Stillmore	Police Department Payroll	3-Public Health-Negative Economic Impact: Public Sector Capacity	3.1-Public Sector Workforce: Payroll and Benefits for Public Health Public Safety or Human Services Workers	Public Health and Safety – Police Department Payroll
Stockbridge	Public Safety	6-Revenue Replacement	6.1-Provision of Government Services	The project supports the purchase of technology, vehicles, equipment, and building construction for the Police Department.
Stockbridge	Water Infrastructure Improvements	6-Revenue Replacement	6.1-Provision of Government Services	This project supports replacement and rehabilitation to the city's water system lines and lift stations to provide sufficient services to the residents.
Stockbridge	Employee Vaccination Incentive Program	6-Revenue Replacement	6.1-Provision of Government Services	The City launched a Vaccination Incentive Program to increase the number of employees who were unvaccinated or had only received one vaccination to become fully vaccinated.

Washington	6.1 Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Funds will be used for local government services: water/sewer infrastructure, premium pay, and grant administration.
Watkinsville	6.1 Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	SLFRF used to resurface Harden Hill Road to aid in the proper management of storm water, purchase of lighted pole silhouettes for downtown, and premium pay for essential workers.
Waycross	Salaries and Grants	6-Revenue Replacement	6.1-Provision of Government Services	Spent for firefighter salaries, police salaries, and business grants.
Waynesboro	Water Sewer Infrastructure Grant	6-Revenue Replacement	6.1-Provision of Government Services	SLFRF funds used as a match for Water/Sewer Infrastructure Grant. The improvements made through the use of this project will ensure that the City of Waynesboro Wastewater Treatment Plant operates adequately. Currently the WWTP is experiencing mechanical failures due to operating with the use of equipment that is past its useful service life, causing an inability to get replacement parts. The WWTP also lacks an emergency back-up power source in some parts of the plant, this creates a risk of not being operational during emergency situations. The improvements paid for through the use of this project will include removal and replacement of failing grit removal equipment, new emergency backup generator, liquid lime chemical feed system for alkalinity control, remove and replace return activated sludge pumps and modify existing RAS/WAS pump station, new and reliable pumps, new sludge presses, and concrete repairs to existing basins throughout the plant.
Waynesboro	Infrastructure Improvement	6-Revenue Replacement	6.1-Provision of Government Services	To replace sewer land that had collapse and was causing sewer to back up in the residents home. There was a storm drain line on 12th street that had to be replace because it had collapse and when it rained, it caused rain water to backup in the yards of the residents in the storm drain.
Webster County	Well Project	6-Revenue Replacement	6.1-Provision of Government Services	Installed new well and new plumbing for the well for the County water system.
Webster County	EMS Project	6-Revenue Replacement	6.1-Provision of Government Services	Equipment for EMS services.
Webster County	Public Safety	6-Revenue Replacement	6.1-Provision of Government Services	Bought 2 new public safety vehicles.

Georgia ARPA Projects (through March 31, 2022) - Cities and Consolidated Governments

Source: US Treasury, April 2022 Reporting Data

Webster County	Walking Trail	6-Revenue Replacement	6.1-Provision of Government Services	Installed a walking trail for the public so they can walk for their health and wellness.
Whigham	NightHawk Meters	6-Revenue Replacement	6.1-Provision of Government Services	Purchase of new water/AMR meters from NightHawk Meters for updating our meter reading. Current system is old and not giving reliable readings, resulting in loss of revenue to the City.
Whitesburg	Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	General government services provided by our jurisdiction, including but not limited to maintenance and repairs to city facilities, financial support for employees, repairs and replacements to roads, public safety(police) services and to pandemic related expenses that provide for the mitigation and mediation of public health.

Woolsey	Payroll costs for public safety-Fire services	3-Public Health-Negative Economic Impact: Public Sector Capacity	3.1-Public Sector Workforce: Payroll and Benefits for Public Health Public Safety or Human Services Workers	<p>The Town of Woolsey transferred our initial allotment of \$31,182. to Fayette County as they provide a multitude of services for our Town, including fire and police protection. The following is their description of the these fund expenditures:</p> <p>“ Both fire Services and Emergency Services were impacted due to significant increase in calls and services required due to COVID and its impacts. The impacts of COVID caused increased expenditures for Fayette County and required a refocus of these emergency services and personnel to where they were most needed. These services are provided to all citizens of Fayette County and not based upon economic need.</p> <p>The shift on our operations to provide response to, and care for COVID-19 patients has impacted the department significantly. EMS calls account for >86% of our total call volume. Each call must be treated with the expectation that the patient likely could be COVID-19 positive. For this reason, we have had to shift our protocols and call operative methodology to accommodate this potential.</p> <p>This has caused a significant increase in supply/equipment purchases for which we were required to re-allocate other budget monies to supplant. Each patient encounter required a minimum PPE ensemble and specialized equipment to care for their needs, and to transport them to the hospital in a manner that maximized protection for the patient, the crew, and the hospital staff. Specific protocols and medicines were enacted to ensure adequate treatment of these patients while minimizing the risk and incidence of cross-contaminations.</p> <p>Units were required to be completely cleaned and decontaminated after each call utilizing specialized solutions and application equipment. This decreased unit availability and increased cleaning costs and SLFRF funds for premium pay for local government eligible workers, and low to moderate income housing, and water and sewer.</p>
Wrens	Wrens Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services	Utility Improvement Project involving water and stormwater enhancements.
Zebulon	Utility Improvement Project - 6.1 Revenue Replacement	6-Revenue Replacement	6.1-Provision of Government Services
