

BETTER SERVE YOUR CITY WITH GMA's Information Technology Services

At GMA, we understand the digital transformation happening around us and that reliable, secure information technology resources are essential for efficient operation of city business. GMA's information technology services address these realities and help cities make informed IT decisions and implement successful IT solutions.

INTRODUCING GMA'S IT SECURITY & STRATEGIC CONSULTING SERVICE

GMA's latest IT service offering is the IT Security & Strategic Consulting service. Through GMA's strategic ally Ryan Wilson, city leaders can benefit from his years of municipal IT experience and receive a range of consulting services. These services will provide clarity and direction through detailed IT infrastructure and security assessments, experienced planning, cybersecurity training and more.

As a valued member of GMA, you'll have access to the following services as a part of your existing membership:

- GMA's IT list serve and discussion board
- Participation in GMA's monthly IT services roundtable group
- GMA IT webinars

IN ADDITION TO THE BASE SERVICES TO THE LEFT, AN ANNUAL SUBSCRIPTION PLAN WILL INCLUDE THE FOLLOWING:

INFRASTRUCTURE AND SECURITY ASSESSMENT ON-CALL STRATEGIC CONSULTING SERVICES

Cities will enjoy the comfort of having access to chief information officer-level expertise when the need arises, for matters including:

- RFP review, interviews
- Identification of solution providers
- Assistance establishing IT support arrangements through state and federal governmental organizations
- Review of actions based on recommendations in assessment

SPECIFIC STRATEGIC CONSULTING SERVICE OFFERINGS

Cities may also use the annual consulting hours for the following projects:

- Technology Roadmap
- IT Governance
- IT Strategic Planning and Steering Committee
